Why Wallenberg Matters

July 29–August 5

Swedish diplomat Raoul Wallenberg (Aug. 4, 1912–?) was one of the ultimate heroes of the Holocaust, rescuing tens of thousands of Jews in Nazi-occupied Hungary. In 1945, Wallenberg was imprisoned by the Soviet authorities.

On the centennial of his birth, we present a special exhibit and full week of programs shedding light on Wallenberg’s life, his extraordinary courage, and Michigan connections.

- Programs at various locations July 29–Aug. 5 (see right for details)
- Exhibit on view at the Holocaust Memorial Center auditorium July 29–Sept. 2
- Complimentary admission all week; accepting donations

Did You Know...

- Wallenberg was a University of Michigan alumnus — the University gives the Wallenberg Medal to celebrated winners for contributions to humanity (Aung San Suu Kyi is a recent recipient)
- Wallenberg was the second person (Winston Churchill being the first) to receive honorary U.S. citizenship from Congress, although posthumously

To me there is no other choice.
